Armless Tarping Systems

pioneer cover-all

HI-ROLLER SERIES

PIONEER-HR2000PP PIONEER-HR2000PTO (HI-ROLLER)

Features

- semi-automatic "armless" tarping system with a hydraulic gantry that adjust from 68-156"
- powered either by a 12V self-contained power unit (HR2000PP) or can be integrated with the truck's hydraulic system (HR2000PTO)
- the driver simply raises the gantry, deploys the tarp, and then ties down the tarp to the provided cleat
- audio and visual "up-gantry" alarm system located in the cab
- standard tarp is 8' wide reinforced HEAVY DUTY mesh
- gantry raises to over 13 feet high

Recommended for covering 20, 30, and 40 yard open top containers.

Roller Assembly

•Power Options

12V Self-contained power pack or the truck's PTO.

- When the HR2000 is mounted on a multi-axle truck-it is capable of covering 40 yard containers and is ideal for narrow streets & alleys.
