PERKINS SATELLITE LIFTER SYSTEMS

Mount a Perkins Satellite Lifter System to the rear bed of any standard 8' pick-up truck and you have yourself a powerful tool for collecting refuse where a typical garbage truck cannot go. Areas including rough terrain, small alleys, remote locations, beaches, parks, and other areas having limited or restricted access. Available in a variety of configurations to fit any of your needs.

Features and Benefits

The Perkins Satellite offers users the ability to collect refuse from hard to reach places full-size garbage trucks cannot access.

- ◆ Allows collection in parks, beaches, trails, off-road, warehouses and other facilities, throughways, temporary events, and remote locations
- ◆ Available in regular and 60/40 or 70/30 split-body configurations
Special configurations available upon request
- ◆ Dual side-access doors standard on 6 yard sizes
- ◆ Your choice of lifter for hook style carts or barrels
- ◆ Body dumps into standard rearloader
- ◆ Quick release mounting pins
- ◆ Bumper system protects lifter
- ◆ Optional Tarp system
- ◆ ISO 9001 manufacturer
