

THE ROTAC® RECOIL

BY MICROMATIC

- **LIFTS 800 LBS AT 3000 PSI**
Industry Leading 27,000 in/lbs torque at 3000 psi
- **ULTRA SLIM PROFILE DESIGN**
Tipper tucks away to accommodate kick-bar setups for dual commercial & residential routes.
- **CART ENGAGEMENT**
Scoping motion of cart tipper ensures consistent cart engagement on un-even terrain
- **CART COMPATABILITY**
Designed for carts with US 2-Bar; ANSI Z245.60-2008, Type B Domestic Carts
- **MOUNTING VERSATILITY**
Allows for a range of mounting heights from 36 - 42" to accommodate a variety of truck chassis heights
- **BUILT FOR DURABILITY**
Recoil design features Heavy Duty Steel Construction, Reinforced Saddle, Durable Powder Coat Finish & Durable External Stops
- **LOW MAINTENANCE DESIGN**
Two Self-lubricating nickel plated pivots inside bronze bushings with external grease points help to extend life.
- **ROTARY VANE ACTUATOR**
Forged alloy shaft with durable 2" spline and cast iron housing offers the most lifting torque in the industry
- **MADE IN THE USA**
Manufactured and assembled in Berne, Indiana
